Proclamation

On 05/26/17 the California State Warning Center (CSWC) received a resolution from Contra Costa County, School District of Canyon (Town of Moraga), proclaiming a local emergency due to longer response times for fire, medical, and security emergencies affecting Canyon School students. The local emergency is due to the closure of the Canyon Bridge, resulting from the 2017 February Winter Storms. They are not requesting assistance at this time.

Structural Collapse, Oakland, Alameda County

On 05/26/17 at 1029 hours, the California State Warning Center (CSWC) received a report of a structure collapse at a construction site in Oakland, Alameda County.

- Per the Law Duty Officer (LDO), minor road closures were in place for streets bordering the collapsed building. No evacuation orders and no other law enforcement activity to report.
- Per the Coastal Duty Officer (CDO) and Fire Duty Officer (FDO), a total of ten people were briefly extricated from the site and transported to area hospitals with minor injuries. All injured parties have been accounted for.
- Oakland Fire Department will remain on scene until the site is secured.
- There are no requests for state assistance at this time.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.
- All deliveries and local access previously scheduled have been suspended.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed last week due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- There is no estimate when this section of State Route 1, approximately nine miles north of the San Luis Obispo/Monterey County line will re-open.

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Solano County: Sacramento River at Rio Vista

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Inland Region

River Forecast - The following river is forecast to meet or exceed Flood stage:

Mariposa County:

- Merced River at Yosemite at Pohono Bridge is forecast to exceed flood stage at 10.0 feet the morning of 05/30/17.
 - Potential Impacts: Western portion of North Pines Campground, located at the east end of Yosemite Valley between the confluence of the Merced River and Tenaya Creek, begins to flood. Water rises to the base of the swinging bridge downstream from Chapel Meadow.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Placer County: Truckee River at Truckee
- Alpine County: East Fork Carson River at Markleeville, West Fork Carson River at Woodfords

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

Cal OES Southern Region

River Forecast - The following river is forecast to meet or exceed Flood stage:

Mono County:

- West Walker River at US 395 Below Little Walker is forecast to exceed flood stage at 6.0 feet the morning of 05/28/17.
 - Potential Impacts: Some minor flooding of lowlands, pastures, and rural roads.

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

WEATHER OF CONCERN

Weather of Concern

- Isolated afternoon showers or thunderstorms possible over the central Sierra into early next week.

Active Weather Warnings, Watches and Advisories by County:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

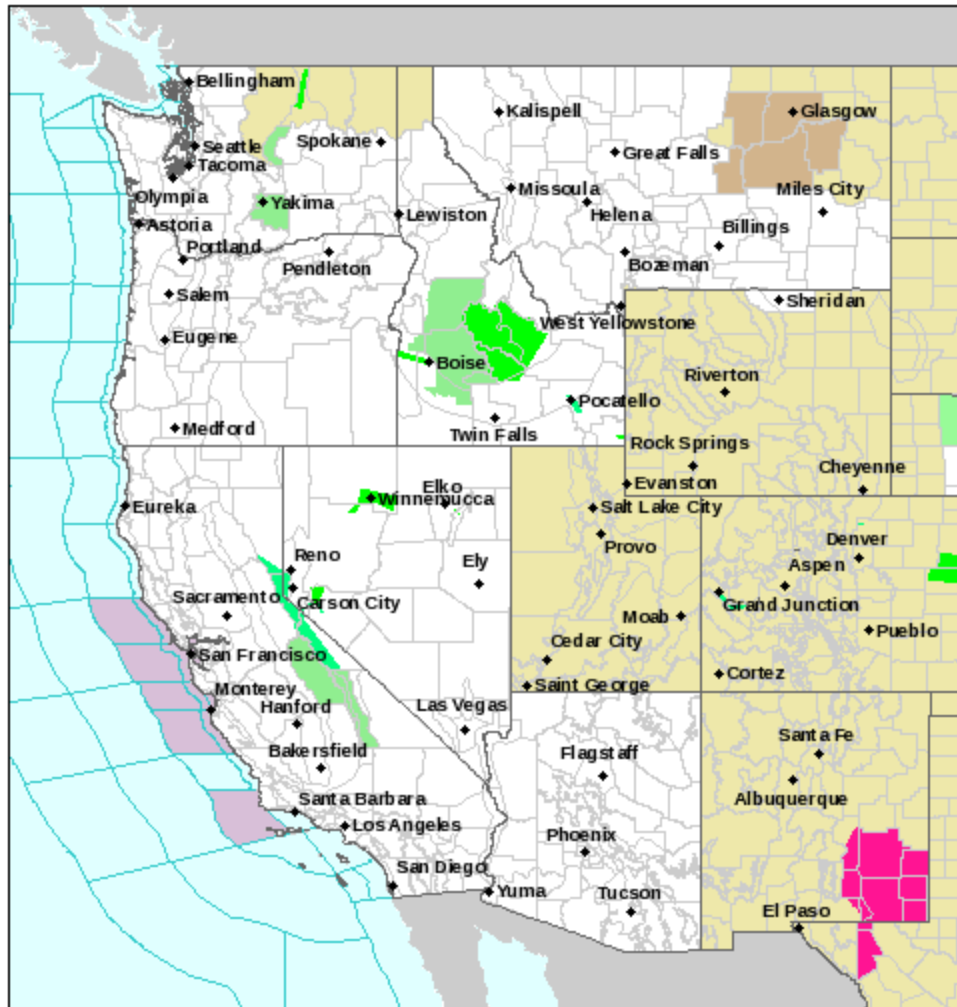

NORTHERN CALIFORNIA

High pressure will build overhead this weekend and produce warmer temperatures through Monday. There will still be buildups near the higher terrain and a small threat of afternoon and evening showers and thunderstorms each day. Light slope winds will prevail this weekend, with the exception of the daily coastal and delta winds. Low pressure approaching the coast will cause an increase in S-SW winds on Monday. By Tuesday the low will be close enough to the coast to produce more shower and thunderstorm activity and cooler temperatures, and this pattern will continue through Thursday.

SOUTHERN CALIFORNIA

A ridge of high pressure will build into California from the southwest bringing significant warming and drying to the region tomorrow through Monday. Temperatures will warm into the low to mid 90s and minimum humidity will drop into the teens and twenties Sunday and Monday. Winds will be light tomorrow through Monday. A Pacific trough will drop down the West Coast bringing significant cooling and higher humidity to the area Tuesday through Thursday. Strong and gusty westerly winds will surface across the mountain ridges and desert passes Tuesday afternoon through the middle of next week. Isolated afternoon showers and thunderstorms will be possible over the Sierra next Wednesday and Thursday.
